Academic English Class

- ❖ Academic English is a bit different from everyday English. It's more formal and often uses more advanced vocabulary. You need to know academic English to write college essays, create lab reports or literature analysis, read and understand college texts, and in many other areas of university life.
- ❖ We will assign you to an academic English class at your level.
- ❖ We will help you learn reading and writing by working with a fun and experienced English teacher.
- ❖ You will practice your speaking & listening by pairing up with UH Mānoa students.
- ❖ We emphasize the importance of academic English in your graduate school success.

Graduate School Preparation

- ❖ We will help you build connections with faculty and graduate chairs in the department in your field.
- ❖ We will arrange for you to observe a variety of classes with other UH Mānoa students and participate in class activities.
- ❖ We will provide a workshop for you to engage with members from the Graduate Student Organization (GSO) and learn about the student governance and student life at UH Mānoa.
- ❖ We will organize workshops to offer advising on how to apply to UH Mānoa through different pathway programs.
- ❖ The English teacher will guide you on how to professionally present yourself and your work to faculty members and classmates.

Hawaiian Culture

- ❖ The University of Hawai'i is a Hawaiian place of learning. It is a wonderful location for you to experience the unique Hawaiian culture and history.
- ❖ We have a professional dancer to teach you how to Hula!
- ❖ We take you on a hike in the most historic sites on Oahu to enjoy nature and beauty of this tropical island.

Off-Campus Excursions

- ❖ Lyon Arboretum Visit:
The Harold L. Lyon Arboretum is nestled in 193.5 acres of tropical rain forest at the top of the Manoa Valley watershed. Lyon Arboretum serves as a cultural and scientific resource to urban O'ahu's diverse communities.
- ❖ Iolani Palace:
Iolani Palace is a living restoration of a proud Hawaiian national identity and is recognized as the spiritual and physical multicultural epicenter of Hawai'i. Built in 1882 by King Kalakaua, Iolani Palace was the home of Hawai'i's last reigning monarchs and served as the official royal residence and the residence of the Kingdom's political and social life until the overthrow of the monarchy in 1893. Registered as a National Historic Landmark since 1962 and the only official royal residence in the United States, the Palace is one of the most recognizable buildings in Hawai'i.
